

## BLASTRAC HAND HELD MACHINE

### Introduction & Technical Specification

#### MAIN ASSETS

Our Blastrac 1-5HH is a hand held machine that is ideal for processing both concrete and steel surfaces. It is a versatile hand tool that is perfect for both shot blasting and steel blasting. The 1-5HH is not only cost efficient, but packs the power you expect from any tool.

- Closed circuit which is almost dust free, when connected to an appropriate Blastrac dust collector.
- Universal unit: can be connected to a standard electrical plug (230V).
- Small and compact, but still very efficient.
- Can work on very small or hardly accessible areas for example edges.
- Easy to transport, handle and use.
- Reliable machine, suitable for rental.
- Can be used for floor and wall preparation / renovation / maintenance and decorative purposes.

#### Applications:

The 1-5HH is a compact and powerful hand held tool that can be used on both steel and concrete surfaces. With this versatility on applications, the 1-5HH machine is a must have tool for every contractor. This hand held tool can be used with the range of steel shot and steel grit.

TECHNICAL DATA	
Working width	125 mm
Blasting capacity	Up to 12m <sup>2</sup> /h on concrete
Motor	1,4kW / 230V - 50Hz / 16A - Single phase 1,4kW / 110V - 50Hz / 16A - Single phase
Working speed	0,2 – 1,3 m/min
Weight	9.5 kg
Dimensions (L,W,H)	480mm / 195mm / 350mm
Drive system / speed	Manual / N/A
Working direction	Forward (push)
Surface	Steel / Concrete / Stone / Asphalt
